DETAILED ACTION

1. Claims 8-36, 44-72, 74-75, 77-78 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected Species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 4/14/2005.

Claim Objections

2. Claim 76 is objected to because of the following informalities:

Claim 76 (line 2) recites "a computer usable medium", should be changed to --a computer readable medium--.

Appropriate correction is required.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claim 76 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter as follows.

Claim 76 recites functional descriptive material on a computer readable medium. However, claim 76 recites a list of computer readable program code means of a computer program product, the program itself merely manipulates data or an abstract idea without a limitation to a practical application. A practical application exists if the result of the claimed

Art Unit: 2622

invention is “useful, concrete and tangible.” Therefore, claim 76 merely manipulates data without producing a useful, concrete and tangible result.

In order to for the claimed product to produce a “useful, concrete and tangible” result, claim 76 should be added the limitation “whereby the jaggedness on color image edges is reduced” after limitation “fifth computer program code means for diffusing the hue angle difference.”

Allowable Subject Matter

5. Claims 3-7, 39-43, 73 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

See Examiner’ comments reasons of allowable subject matter as indicated in Paper mailed on 08/12/2005.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2622

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
